

2022 Bottom Temperature (°C)

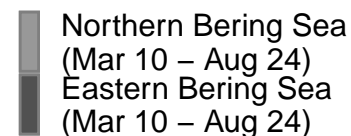

NOAA Fisheries Bering Sea Bottom Trawl Survey

Bottom Temperature (°C)

Survey Region

Planned Stations

NOAA Fisheries conducted the Eastern Bering sea and Northern Bering sea bottom trawl surveys in 2022 aboard the F/V *Vesteraalen* and F/V *Alaska Knight*. The near real-time ocean bottom temperatures depicted were collected May 29-May 30. On May 30, stations H-16 (57.37°N, -158.48°W; >5-5.5°C), I-16 (57.67°N, -158.35°W; >4.5-5°C), and J-16 (58°N, -158.29°W; >4-4.5°C) were surveyed by the F/V *Vesteraalen*. There are 7 stations planned for May 31. Credit: NOAA Fisheries
